

\$KEKE

WHITEPAPER

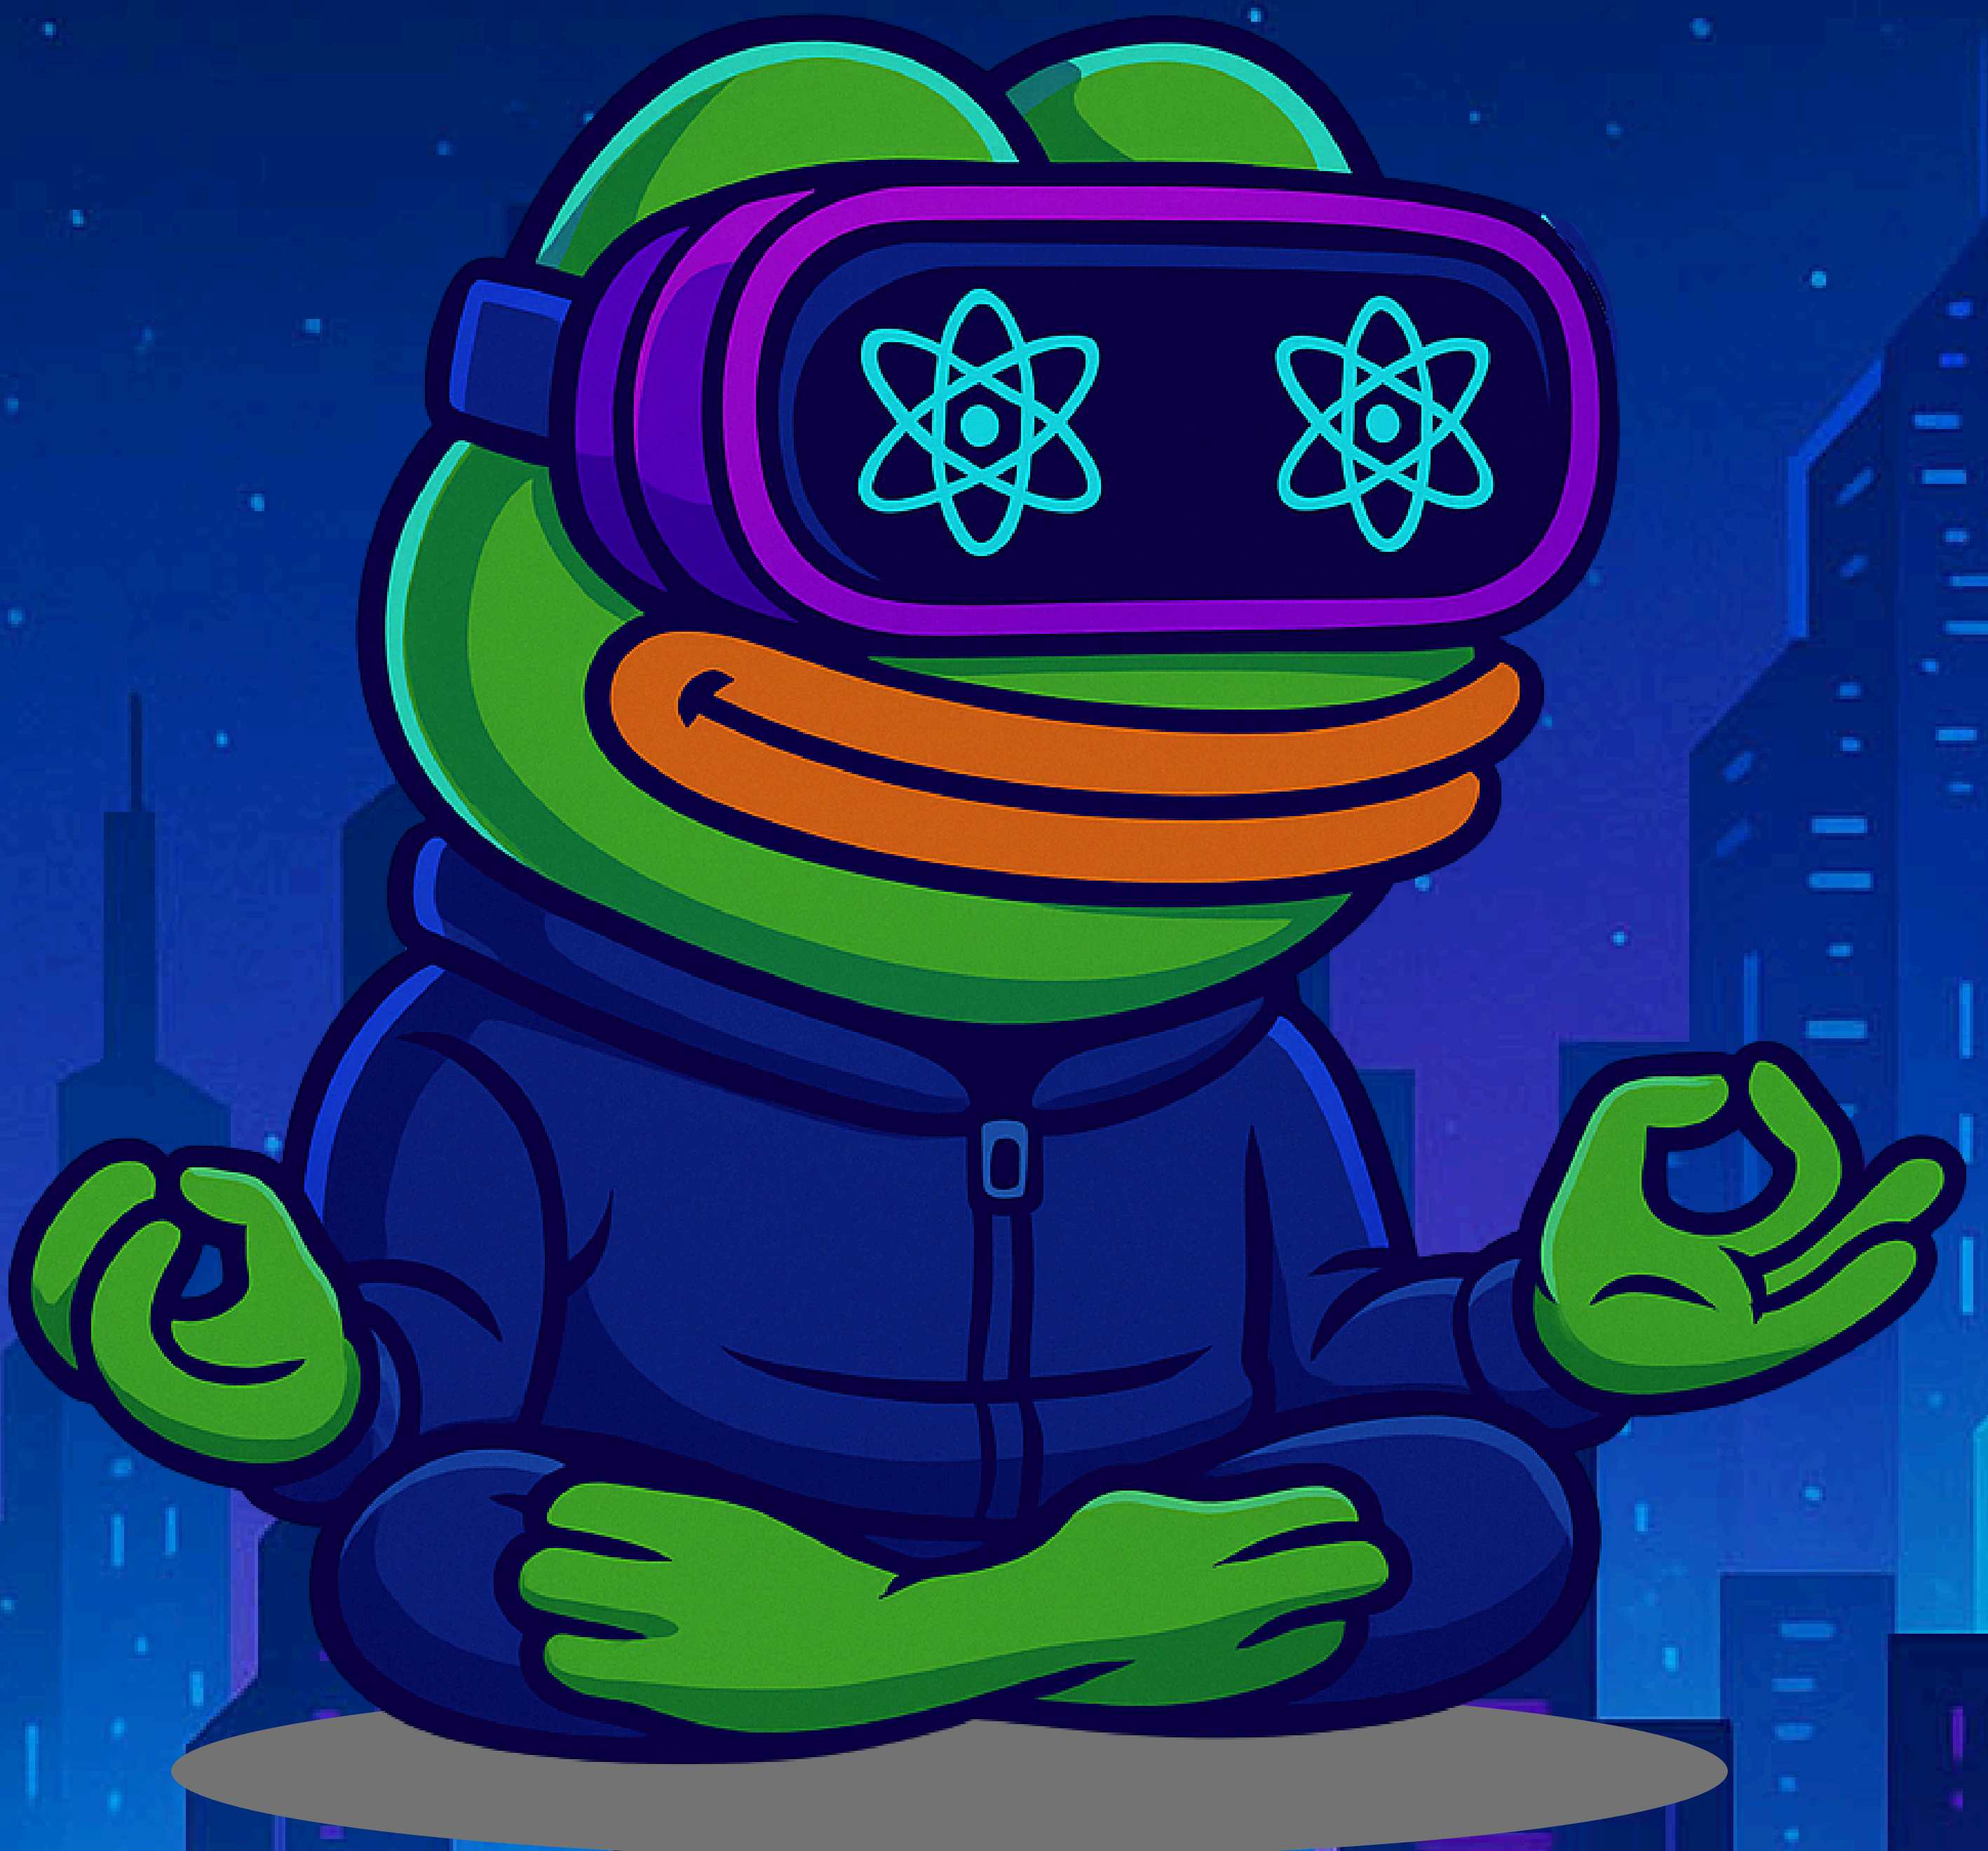

INTRODUCTION:

KEKE (\$K) is a meme-powered cryptocurrency project built on the Binance Smart Chain (BSC). Inspired by the absurdity of internet culture and the multidimensional nature of quantum theory, KEKE aims to unify humor, decentralization, and community through a fun yet visionary token economy.

VISION:

KEKE envisions a parallel crypto-universe where memes are more than culture — they are a force of financial and philosophical awakening. Our goal is to build a decentralized, community-driven ecosystem that thrives on creativity, virality, and meaningful engagement.

KEY FEATURES:

- **Meme-Driven Identity:** Inspired by Pepe, Kek, and quantum reality.
- **Community First:** No presale. Fair launch on Four.meme. 100% transparent.
- **Utility Integration:** Future meme-based AI tools
